I took these photos while my installer Henry was still finishing cleaning up. I've had a great experience with everyone from asap. I called several companies about getting a vinyl fence and they were the only ones that took the time to really go into detail about what they were going to do and what they definitely were not going to do. I liked how transparent they were and it made me comfortable they were going to deliver what they said they would. They did. My fence was installed in 3 weeks. It would have been faster but i had to get some brush cleared and everything looks great. I got a cheaper quote but i don't regret paying a little extra to go with them. My only complaint and it's not really there fault is that i wanted a tan fence and they said they couldn't give me an estimate on how long it would take because of material shortages. I decided to go with white and I'm happy. Thank you to my estimator Justin. I wasn't an easy customer but you answered all my questions.

The whole experience with ASAP was perfect. These guys were nothing short of fantastic! From the first sales call to the final piece being installed, these guys stayed in constant communication building us the fence of our dreams! Thank you again for the amazing experience and look forward to doing business again!

Felix was amazing. I love my new gate and fence those guys work really hard and do a really good job that company should be proud to have them working for them. And they were the best price we got like four other estimates and they were like half the price took them a couple weeks to get out and do it but once they did it was so worth it.

We just got our fence done at ASAP fence and they beat everyone elses price by 2k. We got our fence for a very large yard done for \$6500. They did hoa approval stuff, and had up in 6 hours from arriving. They also didn't tear up too much sod! They arrived promptly and cleaned up, checking in with us periodically to make sure we were satisfied as it was going up. We originally were referred to another company by a neighbor, but they quoted \$9900 for same fence! We got 6 quotes all together and 6 onsite visits. Despite the price difference, ASAP did a fabulous job. You can see our pics on their webpage (we are the second set of pictures under recent jobs!) wouldn't hesitate to recommend!

I called multiple fencing contractors to see when I could get a quote for a fence extension around a pool. I month, 10 week wait FOR A QUOTE. I called ASAP and they were out that afternoon! I had the quote in a day. We did have a scheduling conflict one day, but they were out first thing the next day. Whenever I called the office someone answered promptly. I recommend ASAP. They live up to their name!

I contracted with ASAP Fence and I am so glad I did. They communicated with me every step of the way from design, permitting and installation. The installers were excellent and did a beautiful job. My job was not the easiest. I made a last minute change to a gate and they honored it without complaint. You can go online and enter your requirements and receive a very accurate estimate very quickly. ASAP is a top notch company and I'd recommend you call them first. Pricing, reliability, quality of material and workmanship plus customer satisfaction. AAAA+++

We got an 8ft tan vinyl fence from ASAP because we were worried about our dog jumping a 6ft fence (from experience). ASAP gave us a quote over the phone and had it installed a few days after we got HOA approval. We are really happy with the work and experience. Justin kept us up to date the entire time. Originally we weren't planning on financing the fence but they were running a no payments for 12 months promotion so we definitely took advantage of that. Thanks again.

I am late posting this review, but ASAP fence was incredible to work with, I had a motorcycle crash through my 150 foot chain-link fence at my business, I called them and they were there the same day at 5 PM and finished at 9:30 PM. They have some dedicated super hard workers. I would highly recommend ASAP fence to anyone. Their prices are also very much competitive versus other companies in the area. Thanks a bunch guys

Justin made this project flawless. He followed up more than once to make sure all was going as promised. His install crew was Remi and one other. Remi was very professional, friendly and worked non stop to completion. This is a truthful and honest review based on this vinyl fence install

We needed a fence in a hurry due to a safety inspection for our pool. ASAP fencing came right out, and gave us an estimate that day. We had to change the work completely and add a whole new fence. They re-estimated and did the work within 5 days. Our new fence looks amazing and passed inspection for the pool. Everyone that works for them was great. Highly recommend.

We used them for an aluminum fence. Loved that they shared pictures with us throughout the project. They sent us video of our gate frames getting made and our posts being made. Super cool. I had no idea so much went into a fence. The end result was great as well

Update 3/6/2020 - New owner and I spoke. Very apologetic and sincerely appreciative of my feedback. I believe he, as the new owner, has a good understanding of the problems and is quickly and efficiently trying to nail them down. Based on that conversation - I would now give them a second chance.

Can't do anymore than 3 stars on this one. I had to follow up several times with the sales guy once I approved the contract to schedule the work being done. They were very disorganized as the fellas doing the work, although nice. Didn't even have the measurements to reinstall fence area. Also they had to come multiple times at a significant inconvenience to me, to install the second gate which was a surprise to the installer fella. Work was good once completed though.

Beautiful fence, excellent workmanship. Project manager Mannie was very experienced and committed to a quality job
Had to be rescheduled twice, missed a day of work.
Company keeps their promise to refund \$100 if they miss their schedule.

Zach did the measurements for our new fence. A very impressive young man, and he was one of the reasons we chose the company.

Remy and Jesus arrived a bit early, which was a pleasant surprise. We have a large backyard and amazingly the old fence was down in just a couple of hours. The new fence went up quickly and is beautiful. I didn't believe they would finish in a single day, but they did, and cleaned up everything before they left.

You can't go wrong with this company. Great to work with, professional, and competitive pricing,

I am SUPER pleased with my new fence installed by ASAP Fence & Gates. It was a very large project and was a great experience beginning to end. I had multiple questions throughout the process due to some county rules and Justin was very generous with his time answering my calls, assisting me with my endless questions and presenting me with option after option. The installers were all friendly and made sure my fence was everything I wanted it to be and more. Remi really knows his fences and the issues you can run into and helped me to make the proper decisions for my situation as well as helped my neighbors and I come to decisions that fit both of our needs. They were efficient and fast. They made sure every piece was put in correctly and where it was supposed to be. The price was very reasonable. The gates are superior to any other and will hold up for years and years to come. Everyone that I spoke with from ASAP were all very kind and very helpful. I am truly grateful for all of them and would recommend ASAP for any kind of a fence anywhere, anytime.

It's not the most obvious fence but we had a two tone vinyl fence done by ASAP right after we moved in. The experience was great. We did everything while on vacation. They weren't the lowest quote, which they told me they wouldn't be. That was perfect because I wanted someone to make it easy on me. They did. Money well spent.

Showed up early, worked quickly, attention to detail, value far above what others offered. Prices well below what places like USA fence offered. way below. Manny was great, office wonderful. They were recommended by a friend and I would and HAVE recommended to others.. I currently with association to get approved and ASAP will do his fence too. You won't go wrong with these guys.. You will have more problems with your association than here. Manny came out did est. said I have it in stock I can put it in day after tomorrow, that is how good these guys are..

Just moved to a new home and dealing with different contractors doing different jobs. ASAP Fence & Gates so far is the best and most reliable company I hired. Three different vinyl enclosures with gates were done in very timely and efficient manner. Quality of the job is superior. I am very satisfied and highly recommend this company to others.

Our vinyl fence looks great! Our estimator Justin was very responsive and helped us solve a permitting issue we weren't expecting. We had Felix as our installer, he did an excellent job. I highly recommend them I liked that they made it really easy to communicate from start to finish. Being a mother of two I prefer texting to avoid repeating myself or misunderstanding important info, I could text them most of the time instead of having to call the office. We even text a copy of our survey to get the process started.

Justin was great setting up everything and arranging the install. The fence installers came out early each day And worked extremely hard in the August heat 8-9 a day until complete. They were very polite and Always cleaned up the yard each day before they left. Their quote was on par with all other fencing company's. I decided to go with ASAP fencing because of the personalized service. (no recordings) actual live person every time I called.

ASAP Fence and Gates lives up to their name! I highly recommend this company. Justin and his crew did a great job from estimating, to measuring, permitting and installation as they were very professional and installed before the other companies could even come out to give me a quote...now, that's ASAP! Our family is very pleased with the customer service, quality of product and installation, communication and especially the speed at which you delivered the finished product! Thank you again!

Justin Schmidt was fantastic! He was able to get my fence in at least 1 month sooner than any of the other fencing companies I called in Sarasota. The work crew was very respectful and professional and even returned to clean up my neighbors' yards. I highly recommend ASAP Fencing and Gates.

Don't waste your time with anyone else if you're in need of a new operating motor for a swing gate. ASAP is from the beginning with calls and quotes from Justin to the installation of a new Liftmaster motor by the incredibly polite and knowledgeable Manny, is my idea of how a superb business should function. Manny, who is gifted with outstanding mechanical skills and aptitude is also one of the friendliest and sincere individuals I have ever worked with. He takes the time and has the patience to answer every conceivable question one could possibly have about a very complex matter. I wasted my time with three other truly incompetent companies until I found, by chance, ASAP, which is a dream in this chaotic world. On top of all the great things above, their price was way below the other vendors. ASAP is truly a five star company.

ASAP Fence & Gates were very responsive with my initial request of obtaining an estimate for a fence. They came to my residence, asked questions, offered suggestions, and sent me a quote very soon thereafter. The scheduled appointment for installation occurred a few days later. The workers showed up, explained what they were going to do. They continued to update me as the project progressed, and asked questions as needed. I would recommend using ASAP Fence & Gates for anyone who wants a job done well in a timely fashion.
